AI Use Log - Reza

Write Sprint 1 Planning Task: Sprint 1 Priority Planning

Purpose of AI Use: To help organize Sprint 1 tasks by priority.

Chat Link or Prompt/Response: Regarding the Sprint 1 document I showed you, help me organize the priorities for our CareerConnect project. Look at what the teacher actually expects us to finish in Sprint 1 and separate the work into high, medium and low priority. Keep it simple and realistic and do not add things that are not in the document.

AI Suggested Content: The AI grouped Sprint 1 work into high, medium and low priority based on the project instructions.

Validation: Compared the suggestions with the Sprint 1 PDF and reviewed them with the team.

Decision: Modified before use.

Reflection: The response helped us decide which tasks should be completed first.

Responsible Person: Reza Ahsan

Task ID/Title: Sprint 1 Priority Planning

Write Sprint 1 Planning Task: Sprint 1 Risk Planning

Purpose of AI Use: To brainstorm possible risks for Sprint 1.

Chat Link or Prompt/Response: Can you help me think of possible risks for Sprint 1 of our CareerConnect project. I do not really know what kind of risks we are supposed to include, so give me realistic examples for a group software project and keep it simple.

AI Suggested Content: The AI suggested risks such as technical issues, missed deadlines, merge conflicts and misunderstanding requirements.

Validation: Reviewed the risks and kept only the ones that could realistically affect our Sprint 1 work.

Decision: Modified before use.

Reflection: The response helped us understand what a sprint risk is and choose realistic ones.

Responsible Person: Reza Ahsan
